2.  Mr. Leahy, State Department, telephoned to advise that he and Henry Ford had met with Representative Oren Harris concerning future hearings on the amendments to the Communications Act, H. R. 11732. He indicated Mr. Harris appeared cooperative and understood some of the problems involved. Possibly hearings can be held before the Commerce Committee the second week in July. Leahy plans to meet with the Staff Director in the near future and asked if we wished to accompany him. Also, Leahy advised Senate Foreign Relations will hold hearings on this bill on Thursday of this week with George Ball as the witness. Other matters will be discussed at the session. He will have appropriate DOD witnesses present, however.
